

HAVE YOUR OWN "QUIZ OF TWO CITIES"

RULES OF THE GAME

For swell fun at home, stage a "Quiz of Two Cities" just as Gunther's does it on the air between Baltimore and Washington. The same competitive spirit will make it just as popular with your guests.

First, choose 2 teams, dividing your crowd evenly, women against the men, married against single or any way that is most competitive. Give each one pencil and paper and the master of ceremonies is ready to begin the quizzing.

The members of each team then are numbered 1-2-3-4, etc. (each team has 4 on the "Quiz of Two Cities"). The *same* set of questions is asked each contestant with corresponding numbers so that they are competing directly against each other.

Each contestant writes the answers to his set of 3 questions. Numbers 1 and 2 of the general information type are worth 10 points each and the bonus question is worth 20 points. A perfect score earns 40 points for the team. The master of ceremonies keeps an accurate score on each one and, when all contestants have been quizzed, the team points are totaled and the highest score wins.

QUIZ QUESTIONS

- Name at least one of the two principals in the most famous duel that ever occurred in the United States.
Ans. Aaron Burr and Alexander Hamilton.
 - In soccer they use a ball, and in tennis they use a ball—what do they use in ice hockey and badminton?
